GERMANY

In Germany the playing models differ in the various regional federations.

Normally they play:

4 vs. 4 for U6

7 vs. 7 for U7 to U12

Some local federations play 11 vs. 11 with the U12 age group and some even as young as U10.

“In my opinion small-sided games are better for young players, so at my academy we often play 4 vs. 4 in the training sessions. Small-sided games enforce a lot of technical abilities.”

Mr. Klaus Pabst

former Technical Director for the Youth Academy of Cologne.

GUAM

My name is Basil O'Mallan and I am the president of the youth soccer league here on Guam. There are about 1,000 kids ages 4 to 16 registered to play soccer in the league. Since Guam is a small island, about 200 square miles, and much of it mountainous, finding level playing fields is my biggest challenge. As a result we play small-sided matches on smaller playing fields for the various age groups. We also modify goal sizes. Soccer is very popular here and the competition level is pretty good. We are part of the Asian Football Conference. We are very fortunate, though, as the weather is wonderful year round so we play two full seasons and also a summer league. I will prepare a more detailed report and get back with you soon.

Mr. Basil O'Mallan

HUNGARY

I would like to inform you about the match formats in different age-category in Hungary.

4 vs. 4	U 6-7	Pitch 20X30 m	Goal 1X1 m (no goal-keeper)	Ball size 3	
6 vs. 6	U 8-9	5+1	30X40 m	3X2 m	4
8 vs. 8	U 10-11	7+1	40X60 m	5X2 m	4

Only in tournament system.

From U12 normal team, pitch and championship.

Mr. Brünyi Béla
Youth Secretary

Since we are very keen to get in the EU, and it was a part of the "package deal", Hungary finally had to take major steps in the past few years in improving certain issues in the coaching and player development department. A nationwide program was implemented of unified ideas and new playing rules.

Here is what I gathered so far:

U8 4 vs. 4 without GK

U10 5 vs. 5 with GK

U12 7 vs. 7 with GK

The U8s are using 2x1 meter (cca. 6'x3') goals, no corner kicks but three corners can be exchanged for one PK. That penalty has to be kicked from the half way line without GK. There is no throw-in but pass or dribble into play. No kickoff during the game and after a conceded goal they just put the ball back in play. Interestingly, and that only exists at the U8 level, they can bring the ball all the way to the half way line before the defending team is allowed to pressure. That rule though is not nationally accepted, certain counties and clubs don't endorse it. Some only use it when the game goes lopsided. On the U8, U10 and U12 games they don't have referees but field marshals (I assume designated parents) who only supervise the activity, not officiating it. It wasn't clear but I think it is only on the tournaments (which run in festival format) and on the intra-club games can be found (?). Once they travel they probably have refs.

I grew up in a Hungarian second division club's youth academy and we were sentenced to play full field 11 vs. 11 at U10 already. I remember lots of frustration, boredom and aggravation in my first few years. What I've found on our web site now is rejoicing and it is finally the complete opposite of what we had to struggle through.

TURKS AND CAICOS ISLANDS

As you know FUTSAL is becoming very popular. I personally like to use it, maybe modifying it a little, for U/10 applications. The four seconds rule makes the game much crisper and the 22x42 meters field is a perfect size for children. The accumulated fouls teach discipline and work on the children's attention span development. So...since 5-aside exists and has its own specific set of rules, and a World Championship (which the TCI have just entered, by the way), why not use it? Dump the "low-bounce" ball and use a # 4; get rid of the stop watch and do 20 minute halves; change the kick-in for the throw-in ... and so on to suit your needs.

WALES

The small-sided game has been in force in Wales for about 8 years at under 12 level. At first, although mandatory, it was organised to recommended standards, this has recently been reviewed and rules and regulations have been established to ensure uniformity across Wales. The rules allow for flexibility which can take into account the age and ability of the player, by reducing numbers, applying conditions, playing without goalkeepers and rotating players with no limitations on substitutions etc. As a rule the games are non competitive; i.e., they do not form part of a league structure and therefore the result whilst important is not crucial in a bigger scheme. This is supposed to reduce negative parental influence.

Player Development Manager for the Football Association of Wales.
